

## EXPLORE YOUR SOUL CONNECTION TO THE REALM OF THE ORBS.

Meet author, hypnotherapist, and metaphysical investigator Randolph Rogers as he explores our connection to the spiritual dimension of the orbs. The phenomenon of orbs appearing in photographs has been on the rise since the advent of digital photography. Who are these entities of light? Why are they showing up in increasing numbers? What is their message to us? Join us at Ganesha Center for an exciting workshop exploring our soul connection to the spirit orbs.

### **KINDRED SPIRITS WORKSHOP**

#### *Kindred Spirits: A Regression to Connection*

Our goal in this regression workshop is to document contact with the spirit orbs around us. Using a high definition digital infrared camera we'll attempt to capture motion footage of their presence as they send radiant bursts of energy into our visual spectrum. Providing a bridge between dimensions, the orbs can give us a full understanding of who they are, how we're connected, and what their presence means to our lives.
